About PETROLIFT

Petrolift was established in 1999 mainly serving Petrochemical Industry in Egypt and other surrounding countries mainly Libya, Oman, Syria, Yemen, Jordan, Iraq, and UAE. Services included Lifting Inspection services, Lifting Equipment supplies, and Training services.

Petrolift has worked with reputable companies to supply products and knowledge to our clients. Companies like Crosby, Sala/ Protecta, Bridon, M& O Global, and Wood Group are industry leaders in their fields with a proven track records. This cooperation enabled Petrolift to offer world-class services covering offshore and onshore safety training services including training, knowledge, and products.

Vision

To provide the highest practicable standards of maritime education and training through quality training programs well delivered by the competent and dedicated training staff that will be supported by the use of the most advanced equipment and facilities To raise the level of Safety & Health awareness and enhance Safety & Health programs and plans by providing effective management training courses to Safety Personnel in the Middle East.

Mission

To develop high-performance standards in the field of Occupational Safety & Health and Fire in the Middle East.

Petrolift is able to offer a large range of safety training courses relevant to the offshore oil and gas industry, including BOSIET (Basic Offshore Safety Induction and Emergency)/FOET (Further Offshore Emergency Training), MEMIR and OIM coaching and Assessment at the site in Cairo at our Badr City Training Centre. Petrolift will also conduct training at the client's premises locally and internationally if required to meet our customers' needs.

Our Values & Ethics

Our core values are the cornerstone of who we are, how we work, what we believe in and what we stand for.

Honesty

We follow honest business practices as they build the foundations of trust with our Clients. We keep our promises and take responsibility and we are always clear in all communications so that we generate trust and assurance.

Respect

We treat others as we expect to be treated. We maintain esteem, dignity, and honor for our partners, customers, and the profession.

Integrity

We are proud of our reputation that was built over many years as we always show respect for all individuals for their diverse backgrounds, experiences, approaches, and ideas.

Partnership

We always work hard with our Clients to build strong relationships with each one of them and we offer the best quality and optimized costs.

Continuous Learning

We have a passion for lifelong learning and we value professional engagement as much for ourselves as for our Clients.

PETROLIFT Training Center

PETROLIFT Training Center envisions itself to be the leading maritime training center by providing accomplished an excellent understanding of client's requirements in coaching lifting, HSE and drilling on sites. Coaching covers various aspects from safe practices to changing unsafe habits and developing a good sense of safe operations in a wider understanding of the concept.

PETROLIFT accomplished an excellent understanding of the client's requirements in coaching lifting, HSE, and drilling on sites. Coaching covers various aspects from safe practices to changing unsafe habits and developing a good sense of safe operations in a wider understanding of the concept.

The Petrolift Badr City Training Centre has been built to international standards; the training center includes a 3m deep swimming pool with a fixed HUET system and overhead gantry crane, Heli-winch simulator, and 2.5 /1.0m step-off platform options. The training Centre also includes a 2 level smokehouse and firefighting training ground, confined space entry module plus TEMPSC Lifeboat, muster platform, and davit crane for lifeboat training, this allows us to conduct OPITO Approved BOSIET and FOET courses, these are all by experienced and qualified expatriate trainers, as well as local trainers using accredited course packages.

OFFSHORE SAFETY TRAINING

Basic Offshore Safety Induction and Emergency Training (BOSIET)

This is an OPITO approved course, designed and conducted according to OPITO standards for cold water locations. The course includes Offshore Safety Induction, Sea Survival, Helicopter Safety and Underwater Escape Training, Fire Fighting & Self Rescue and Basic First Aid. Including Emergency Breathing Systems (EBS) and Immersion Suits.

Tropical Basic Offshore Safety Induction and Emergency Training (TBOSIET)

This course is an OPITO approved course, designed and conducted according to OPITO standards, including; Offshore Safety Induction, Helicopter Safety and Escape, Sea Survival, Fire Fighting (Extinguishers) and Self Rescue (Smoke Hoods). This course is designed for Tropical waters and as such does not include the use of an Emergency Breathing System (EBS) or immersion suits

- DURATION: 3 DAYS
- ACCREDITATION: OPITO
- VALIDITY: 4 YEARS

Helicopter Underwater Escape Training (HUET),(EBS)

This course is designed and conducted according to the OPITO standard for Helicopter Underwater and Escape training. This course is suited for personnel who may be required to fly offshore where the full BOSIET is not required by the customer. Includes Emergency Breathing Systems (EBS) and Immersion Suits.

- DURATION: 0.5 DAY
- ACCREDITATION: OPITO
- VALIDITY: 4 YEARS

Tropical Helicopter Underwater Escape Training (THUET)

This course is designed and conducted according to the OPITO standard for Helicopter Underwater and Escape training and is the Tropical version of the HUET. Also it includes lifeboat and sea survival skills. Does not include EBS or Immersion suits. Persons restricted to Tropical regions.

- DURATION: 1 DAY
- ACCREDITATION: OPITO
- VALIDITY: 4 YEARS

Further Offshore Emergency Training (FOET)

This course is refresher training for those that have previously done the T-BOSIET, T-FOET, BOSIET & FOET courses, which are still current. This course is mainly practical and consists of Helicopter safety and escape, fire fighting & self rescue and emergency first aid.

- DURATION: 1 DAY
- ACCREDITATION: OPITO
- PREREQUISITES: VASLIED FORT, TFOET, BOSIET, TBOSIET CERTIFICATE
- VALIDITY: 4 YEARS

OFFSHORE SAFETY TRAINING

Tropical Further Offshore Emergency Training(TFOET)

This course is refresher training for those that have previously done the T-BOSIET, T-FOET, BOSIET & FOET courses, which are still current. This course is mainly practical and consists of Helicopter safety and escape, firefighting & self-rescue and emergency first aid.

- DURATION: 1 DAY
- ACCREDITATION: OPITO
- PREREQUISITES: VASLIED FORT, TFOET, BOSIET, TBOSIET CERTIFICATE ..
- VALIDITY: 4 YEARS

Sea Survival

Theoretical and practical training in sea survival skills and techniques, including the use of a marine life raft.

- DURATION: 0.5 DAY
- ACCREDITATION: PETROLIFT
- VALIDITY: 4 YEARS

Basic H2S

Theoretical training of H2S hazards, detection and controls including safety and emergency procedures / equipment

- DURATION: 0.5 DAY
- ACCREDITATION: OPITO
- VALIDITY: 2 YEARS

Electronic International Minimum Industry Safety Training (E-IMIST)

This introductory safety training program, available as instructor lead and e-learning, is designed to introduce the fundamental safety elements of the offshore oil & gas industry to new starts, giving an appreciation of the potential hazards and controls that might be encountered by personnel offshore. Each unit has been designed to focus the delegates' attention on their personal responsibility for safety thus influencing their behavior and attitude towards their co-workers, the installation and the environment.

- DURATION: 1 DAY
- ACCREDITATION: OPITO
- VALIDITY: 4 YEARS

FIRE TRAINING

Wear and Operate Self Contained Breathing Apparatus (SCBA)

Provide an explanation of the general profile of the services we have. Arrange information about our products services in a systematic and fact-based manner. Also express our pride in the service that we have done well.

Fire Warden

Principles of the safe evacuation of buildings in an emergency and the Fire Warden's responsibilities in the workplace. Course includes analysis and use of clients building evacuation plan.

- DURATION: 1 DAY
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

Basic Fire fighting and self rescue

Theoretical and practical training in fire science, fire prevention and fire fighting, including the use of a fire blanket, and fire extinguishers; using dry chemical, small bore water hose, foam and CO2.

Fire Extinguisher Usage

Theoretical and practical training in fire prevention and the use of a fire blanket, and fire extinguishers

- DURATION: 1 DAY
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

FIRE TRAINING

SCBA Search & Rescue

Theoretical and practical training in the use and operation of SCBA, including search and rescue techniques, BA control, and practice in a variety of situations including an enclosed smoke filled heated environment (smokehouse).

- DURATION: 2 DAY
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

Combined First Aid and Fire Fighting Course

To provide participants with the knowledge, skills, and confidence to respond appropriately to a fire and First Aid emergency. Provide the knowledge for the proper use of fire extinguishers, procedures for raising the alarm, basic first aid knowledge and skills to support life in an emergency situation, until qualified assistance is available.

- DURATION: 1 DAY
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

HEALTH & SAFETY COURSES

Confined Space Entry Including BA & Rescue

Theoretical training in the permit procedures for entering a vessel or confined space, plus the skills required to extricate an injured person(s) from a vessel or confined space, including patient handling and the use of ropes, tripods and stretchers. the practical techniques and procedures for working with a variety of breathing apparatus systems in confined spaces.

- DURATION: 3 DAY
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

Gas Testing Awareness

Authorized Gas Tester is required for those involved with performing a test for oxygen, flammable and toxic gases up to and including working in confined spaces.

NOTE: Persons undertaking Safety Watch duties at the entrance to a confined space shall be an AGT Level 1 Gas Tester.

- DURATION: 2 DAY
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

HEALTH & SAFETY COURSES

Hazard Identification / Management

Techniques, tools and practices for the identification of existing and potential hazards in the workplace and how they are managed.

Accident Investigation

Techniques and tools for the investigation of incidents and accidents in the workplace.

Workplace Safety Awareness

Principles of a safe workplace, and how to implement these, with a outline of the responsibilities of the employer and employees

Risk Assessment

To understand the legislative and company structure for managing workplace hazards. Understand the principle of hazard management and the key tools used within the workplace to identify and control hazards. Review the use of Hazard Management tools both inside and outside the work environment.

Defensive Driving Training Awareness

To provide participants with the introductory knowledge and skills to drive defensively thereby ensuring the safe transportation of company personnel, equipment, stores, the safety of the public and the company vehicles.

Safety Onsite

To provide participants with the risk assessment awareness, confined space vertical entry, lock out tag out, and working at heights awareness.

- DURATION: 1 DAY
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

FIRST AID COURSES

Be Prepared For Anything.

First-aid certifications for individuals or groups licensed through PETROLIFT. Enable yourself and your team to be prepared for any medical emergencies that may require First Aid. In most emergency scenarios, fear of not knowing what to do is the most dangerous factor – so, enable your knowledge in First Aid skills to always be able to help.

Basic First Aid

Basic training in how to respond to common first aid emergencies. The course includes training and practice in scene assessment, personal safety, CPR, choking, heart attack, bleeding, burns, dislocations and fractures

- DURATION: 1 DAY
- ACCREDITATION: PETROLIFT
- VALUED: 2 YEARS

First Aid Responder

Theoretical and practical training in how to respond to medical emergencies and includes: Scene assessment, personal safety and patient management, CPR, choking, heart attack, bleeding, diabetes, fractures, dislocations, burns, poisoning, electrical injuries, chest and abdominal injuries, allergic reactions and heat stroke.

- DURATION: 2 DAYS
- ACCREDITATION: PETROLIFT
- VALUED: 2 YEARS

INDUSTRIAL SKILLS TRAINING

Working at Heights and vertical rescue

This course is designed to provide participants with the necessary knowledge and skills to work safely at heights. On completion of this course, participants will have knowledge of the OHS, be able to identify and control hazards; understand job planning and resources required, access and egress; fall arrest systems and Personal Protective Equipment plus work confidently and competently at heights.

- DURATION: 2 DAYS
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

INDUSTRIAL SKILLS TRAINING

Manual handling

Manual handling is an often neglected area of safe work practices despite the fact that incorrect and unsafe manual handling practices amount to more than one third of all work related injuries. This translates into a massive human cost, compensation cost and loss of productivity. On completion of this course participants will gain an understanding of the legal requirements for manual handling, apply sound manual handling techniques and performance of the four stage approach.

- DURATION: 1 DAY
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

Forklift Awareness

This course is designed to provide participants with the sound understanding and knowledge required to enable them to operate a fork lift truck safely in accordance with current legislation.

- DURATION: 2 DAY (INEXPERIENCED OPERATORS)
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

Forklift Training

Legislation in many countries requires operators to be trained and operate a forklift in accordance with relevant standards. This course is designed to provide participants with the sound understanding and knowledge required to enable them to operate a fork lift truck safely

- DURATION: 2 DAY (INEXPERIENCED OPERATORS)
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

Basic Crane Operator Training

This course is designed to give participants the necessary skills and knowledge to operate a crane safely and efficiently on an offshore facility. Actions transfer of equipment to and from support vessels; transfer of personnel using appropriate approved equipment; safe management of loads and other complex lifts at sea

- DURATION: 3 DAY (INEXPERIENCED OPERATORS)
- ACCREDITATION: PETROLIFT
- VALIED: 2 YEARS

Electric Overhead Travelling Crane operation & Slings

British & European Legislation

- Health & Safety at Work
- Lifting Equipment Definitions
- Lifting equipment

- Lifting Accessories

- LOLER

- Calculating Load Weight(s)

- Sling Configurations

- DURATION: 4 DAY
- ACCREDITATION: LEEA
- VALIED: 2 YEARS

LIFTING TRAINING

OPITO Rigger Stage 1 & 2

- The role of the Rigger
- The principles of rigging and lifting.
- Prepare for the lifting operation
- Carrying out the lifting operation
- Restoring the work area and post-operation responsibilities

- DURATION: 3 DAY
- ACCREDITATION: OPITO
- VALIED: 2 YEARS

Rigging & Slings (2 DAYS)

- Legislation, regulations and standards governing the use of lifting equipment.
- Force Influences & Rating Methods
- Load Estimation
- Different types of slings and pre-use checks
- Different types of lifting accessories and pre-use checks
- Complete a Lift Plan/Assessment
- Correct Crane Signals

- DURATION: 2 DAY
- ACCREDITATION: LEEA
- VALIED: 2 YEARS

Rigging & Slings (3 DAYS)

- Legislation, regulations and standards governing the use of lifting equipment.
- Force Influences & Rating Methods
- Load Estimation
- Different types of slings and pre-use checks
- Different types of lifting accessories and pre-use checks
- Complete a Lift Plan/Assessment
- Correct Crane Signals

- DURATION: 3 DAY
- ACCREDITATION: LEEA
- VALIED: 2 YEARS

Lifting Operation Supervisor

- Introduction
- HASWA & LOLER
- Rigger duties and responsibilities
- Banks man duties and responsibilities
- Crane Operator duties and responsibilities
- Risk Assessment.
- Lifting Plan.
- Crane Hand Signals

- DURATION: 4 DAY
- ACCREDITATION: LEEA
- VALIED: 2 YEARS

Appointed Person for Lifting Operations (“Lifting planner”)

- British & European Legislation
- Health & Safety at Work
- Lifting Equipment Definitions
- Lifting equipment
- Lifting Accessories
- LOLER
- Requirements of an inspection

- DURATION: 5 DAY
- ACCREDITATION: LEEA
- VALIED: 2 YEARS

CRISIS LEADERSHIP & MAJOR EMERGENCY MANAGEMENT TRAINING

Introduction to Major Emergency Management

- Introduction to Major Emergency Management course specifically designed for companies with staff who have no previous culture of MEM training. The course covers the fundamentals of emergency management and a practical instructor led exercise based on a realistic scenario relevant to your operations.

- DURATION: 2 DAYS
- ACCREDITATION: PETROLIFT
- DELEGATES: IDEAL NUMBERS 6-8 UNTRAINED EMPLOYEES WITH AN EMERGENCY RESPONSE
- TARGET: ROLE, DEPUTY ON SCENE COMMANDERS, OIMS, TOOLPUSHERS
- VALUED: 2 YEARS

Major Emergency Management (MEM)

- PETROLIFT conducts the 4 day MEMIR course which is specifically designed for OIMs and personnel identified for future employment as an OIM or senior facility positions. The course covers the theory of emergency management, a minimum of 9 realistic exercises with PC based simulation and each delegate's performance is formally appraised as the 'Person in Charge' for 1 scenario.

- DURATION: 4 DAYS
- ACCREDITATION: PETROLIFT
- DELEGATES: IDEAL NUMBER 6 MAX
- TARGET: OIMS, TOOLPUSHERS, BARGEMASTERS, ON SCENE
- VALUED: 2 YEARS

OIM / PIC Assessment

- Petrolift can conduct rigorous assessments or your company standard if you require. You can send your Emergency Response Team (up to 6 personnel) on the MEM Coaching and Appraisal course and then have your OIM assessed with a trained crew on the final day.

- DURATION: 1 DAY
- ACCREDITATION: PETROLIFT
- DELEGATES: IDEAL NUMBER 6 MAX
- TARGET: OIMS, TOOLPUSHERS, BARGEMASTERS, ON SCENE
- VALUED: 2 YEARS

Head Office / Shore Based MEM Training

- PETROLIFT conducts Office MEM Training customized to your operations and covering the following areas:
 - Understanding the Offshore MEM process
 - Corporate command and control principles
 - Managing communications and information
 - Working with the Media
 - Emergency Management roles and responsibilities
 - Supporting the next of Kin
 - Business Continuity

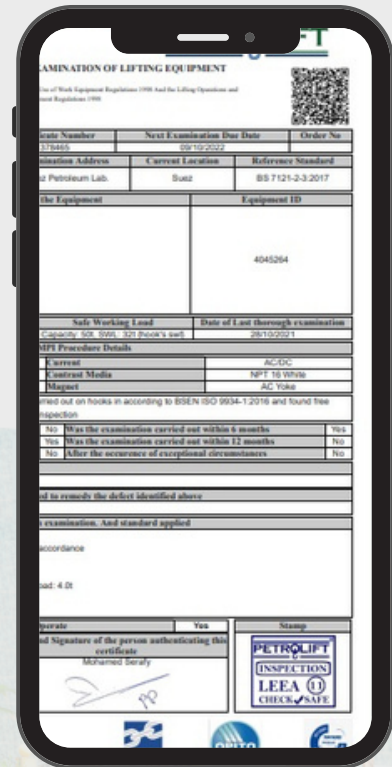

- DURATION: 1 DAY REFRESHER TRAINING AND 1 DAY OF ASSESSMENT
- ACCREDITATION: PETROLIFT
- DELEGATES: OPTIMAL NUMBER 2
- TARGET: OIMS AND SENIOR FACILITY PERSONNEL
- TARGET: ALL SHORE BASED PERSONNEL WITH AN EMERGENCY MANAGEMENT RESPONSIBILITY
- VALUED: 2 YEARS
